## 16 RISK STATEMENT

- 16.1 Rule 4 of the Racing Rules of Sailing states: "The responsibility for a boat's decision to participate in a race or to continue racing is hers alone."
- 16.2 Sailing is by its nature an unpredictable sport and therefore inherently involves an element of risk. By taking part in the event, each competitor agrees and acknowledges that:
- (a) They are aware of the inherent element of risk involved in the sport and accept responsibility for the exposure of themselves, their crew and their boat to such inherent risk whilst taking part in the event;
  - (b) They are responsible for the safety of themselves, their crew, their boat and their other property whether afloat or ashore;
  - (c) They accept responsibility for any injury, damage or loss to the extent caused by their own actions or omission;
  - (d) Their boat is in good order, equipped to sail in the event and they are fit to participate;
  - (e) The provision of a race management team, patrol boats and other officials and volunteers by the event organizer does not relieve them of their own responsibilities;
  - (f) The provision of patrol boat cover is limited to such assistance, particularly in extreme weather conditions, as can be practically provided in the circumstances.
  - (g) It is their responsibility to familiarize themselves with any risks specific to this venue or this event drawn to their attention in any rules and information produced for the venue or event and to attend any safety briefing held for the event.
  - (h) Their boat is adequately insured, with cover of at least £2 million against third-party claims, or the equivalent in other currencies...

## Preventing the Spread of Pollution and Non-Native Invasive Species

Draycote Water Sailing Club (DWSC) has been working closely with Severn Trent Water (STW) to control the risk of pollution and to prevent the spread of Non-Native Invasive species.

In 2010, an invasive species of freshwater shrimp – *Dikkerogammarus Villosus* (the Killer Shrimp) was found at Grafham Water, as well as reports of other non-native invasive species in other reservoirs. DWSC is committed to preventing these coming to Draycote Water and so are requiring that all visiting or returning boats follow the advice from our landlord, Severn Trent. That advice being:

*“Water Users,*

*Can I take this opportunity to remind you to ensure any boats, craft etc are washed and cleaned before they enter this water and before they enter any other water. This will help stop the spread of any invasive species.*

*To stop any spread of any invasive species it has always been the advice of STW to ensure all boats are washed before they enter site and after they leave and enter another water.*

*We do not wish to spread any species we have and do not want to allow any species into Draycote that may give us issues.”*

### **The following precautions are required by all visiting or returning craft:**

- In cases where members /visitors have taken their boats off site and sailed on other waters members must ensure their boat and equipment is thoroughly washed down and cleaned before their boat and equipment returns to DWSC.
- Any boat leaving DWSC to go to another water should be washed down and cleaned before entering that water.
- For people without the facility to wash down away from club grounds, a washing down point is provided in the Lower Car Park.
- Any boat coming on to club grounds may be subject to inspection and may be turned away or directed to the wash down point if considered necessary.

In order to record that visiting or returning boats are clean and do not contain polluting or environmentally harmful matter, we require all owners / sailors to complete and sign the attached declaration.
